## EDUCATION

### SMK IDN Boarding School Solo

Software Engineering, Class 11

Cilacap, Indonesia

July 2023 – Expected July 2026

## EXPERIENCE

### Project Manager Intern – Full-Stack Web Reservation Platform

March 2025 – Present

Cilacap, Indonesia

- Led a 3-member team to develop a responsive full-stack web reservation platform, achieving 90% on-time delivery of project milestones.
- Enhanced backend workflows and optimized RESTful API integration, reducing booking errors by approximately 30% and increasing system efficiency by 20%.

### Trainer – Flutter, SMK IDN Boarding School Solo

October 2024

Solo, Indonesia

- Conducted a 2-day Flutter training for 2 students, focusing on hands-on mobile app development and UI design fundamentals.
- Developed tailored learning materials and provided personalized guidance, resulting in both students successfully completing a basic Flutter project and reporting a 20% improvement in their coding proficiency.

### Instructor – Web & Thunkable, Alhazen Academy

February 2024 – June 2024

Solo & Magetan, Indonesia

- Facilitated project-based web and mobile development training for 25+ students across Ponpes Al Ukhuwah (Solo) and IBS Al Qolam (Magetan), enhancing collaboration and communication skills under the Alhazen Academy program in partnership with SMK IDN Solo.
- Guided the deployment of 10+ student projects, reducing time-to-market by 20% and achieving over 90% positive feedback on teaching effectiveness and curriculum design.

## ACHIEVEMENTS

- Selected as Best Student out of 90+ peers at [SMK IDN Boarding School Solo](#).
- Earned 10+ [certifications](#), including Web Development and Cloud Computing with 95% course completion rate.
- Competed in 4+ school-level tech competitions in programming and UI/UX design.

## PROJECTS

### Presence System – Laravel & Flutter

- Developed a mobile-first attendance tracker with JWT auth, daily logging, and real-time reports—reduced manual tracking effort by 40% in internal testing.

### Elkaavie Platform – Laravel, React, Flutter

- Built a full-stack room management system with multi-role auth, admin mobile panel, and REST API—improved development efficiency by 30% using modular architecture.
